prePrubychallenges

The Ruby challenge problems from the Markup and Coding course of the Viking Code School Prep Work

1 Ruby Calisthenics

1.1 Power

Write a method *power* which takes two integers (*base* and *exponent*) and returns the *base* raised to the power of *exponent*. Do not use Ruby's `**` operator for this!

```
> power(3,4)
=> 81 # (3*3*3*3)
```

1.2 Factorial

1.3 Uniques

1.4 Combinations

1.5 Primes

1.6 Rectangle Overlap
